The number of megapixels means how many pixels there are in the sensor. 1 megapixel is 1 million pixels. The more pixels, the higher the potential image quality. Page 2No many megapixels indicate how many pixels there are in the sensor. 1 megapixel is 1 million pixels. The more pixels, the higher the potential image quality. Page 3Num the number of megapixels indicates how many pixels there are in the sensor. 1 megapixel is 1 million pixels. The more pixels, the higher the potential image quality. Image not available forColor: PLEASE READ THIS DOCUMENT CAREFULLY. This is a legal agreement between you and Evertek Computer Corp. BY JOINING, YOU ARE AGREEING TO BECOME BOUND BY THE TERMS OF THIS AGREEMENT This agreement states the terms under which Evertek offers its products and services. STATES No price protection or stock rotation: Evertek does not offer any type of price protection or stock rotation. We often drop prices suddenly and without notice. We are diligently committed to providing as accurate information as possible. However, since all specifications and descriptions are provided by the product provider, we do not make any guarantee expressed or implied regarding the accuracy of the information, including price, description, specification, and/or quantity. The names of both the product and the manufacturer are used only for identification. The photos are representative only. The packaging of the actual unit can vary. Minimum order: We only sell in bulk. The minimum order is \$100.00. For orders under \$100.00, will be for an additional fee of \$10.00. (International orders require a \$1,000 minimum) Domestic Sales Terms: New domestic accounts are usually set up on credit card terms (we accept Visa, MasterCard or American Express.)) For existing COD customers, we use the check guarantee service for all COD deliveries. If we fail to get approval for your company check order, you will be given the option to pay for a Visa/Master Card/American Express or COD Cashier Check. Orders over \$10,000 must be prepaid by transfer. Company checks: We cannot accept personal checks. The address printed on your company's check must be the same as the address of the vessel. Late fees: Evertek charges late payments (unpaid bills for any reason) of 2% for the first 30 days of delinquency, 5% each month after that. We reserve the right to waive the fee at our discretion. International sales terms: International sales are only on a prepaid translation basis. We do not accept credit cards or L/C's letters of credit. NSF policy: Any refundable check disqualifies the account from any future company verification privileges and may be liable for triple damages, service fees, fees and attorney fees. Credit cards: (US Account only) Take Visa, Master Card or American Express ONLY! All credit card sales must be sent to a credit card payment address. Prices: All prices are listed ex-warehouse Temecula, Temecula, United States. International payment terms: International sales terms are prepaid translation only in U.S. dollars. We do not accept international credit card payments or letters of credit (L/Cs). The client is responsible for all fees deducted from money transfer payments, including sending and intermediary bank fees. Please include No Fees to the beneficiary in the Help section or other relevant section of your money transfer board. The customer is also responsible for short payments as a result of currency conversion fluctuations. Before shipping Evertek will advise the customer on the modifications of orders, which are necessary because of the short payments received. International supplies: International customers are responsible for determining their country duties, tariffs or taxes. For international flights with more than 450 kg we can provide prepaid cargo quotes to major airports based on the door to the airport. Cargo transportation: Unless there is another method of shipment, Evertek will be delivered through the least expensive qualified carrier. If this is a concern, be sure to specify how you want the order sent. (We only use reputable national carriers). While you will be able to insure your batch of trucks, (common carriers like yellow freighter, roadway, etc.) it is STRONGLY informed that you carry separate incoming insurance. Deliveries of computer products are classified as a tariff of 92.5 and freight companies have a limited liability of \$5.00 per pound if the box is lost or damaged. That means if 30lb. A box containing (10) hard drives is lost (estimated at \$80.00 each box has \$800 value), the claim will pay only \$5.00 x 30lbs and \$150.00. It is for this reason that we strongly recommend that you have insurance to cover you for such a situation. You pay transportation costs: When you make an order, after you receive the final confirmation of the page, we immediately write you confirmation of your order. If you find any errors, please contact us immediately. The shipping fee may be empty when confirmed. Once the shipping cost is calculated and the order is sent we will email you again with shipping fees and tracking numbers. Rejected deliveries: If the shipment is rejected for any reason, the customer is liable for the shipping fee incurred. Evertek also reserves the right to charge a 20% restocking fee (which we can also refuse). Direct Manufacturer Guarantee: If there is a direct manufacturer warranty, we require you to return the device directly to the Manufacturer if the device was not DOA (within 7 days of receipt). Guarantee restrictions: Evertek cannot guarantee a product that misused or physically damaged. RMA:RMA Numbers are valid from 14 days after issuance. Once you get the RMA number, please send the item (s) in immediately. Fitness Goals: Evertek cannot guarantee any product suitable for any particular use or purpose. We strongly encourage customers to rate selective units for by their criteria, whether the product will work in its configuration. There are many products in the world of computers that may be incompatible with a particular brand or certain parts. In such cases, you are responsible for reselling the product to a standard application in which the part will work. We can't take the pieces back because they won't work in a particular brand product unless they function properly in others. Defective products: Any losses associated with a defective product should be limited to a return only on the purchase price. Defective items will be replaced by either a refurbished or refurbished unit (even for DOA's). If the replacement device is not available within 30 days, we will provide a credit card. The loans expire 6 months after the date of issuance. The credit memo can be returned if not used on order within 30 days. Refunds will be issued using the original payment method used for the purchase. RMA credits are only for the product and do not include reimbursement of shipping costs. All sales are final: All sales are final. The return of the product, in addition to the defect, is subject to a 20% restocking fee. Returns are not allowed 14 days after receipt. 48-hour discount period for return: Refund allowed, but only within the first 48 hours after receipt, for any orders that are not up to your expectations. Returns after this period of time are at Evertek's discretion and will incur a substantial restocking fee. Damaged items or missing parts: Damaged items or missing parts/accessories not as advertised must be reported within 7 business days of receiving the product. Guarantee Repair: Any items sent back for warranty repair must be poorly tested before the item returns. We will charge for service if we find the returned item in working order. Defective Return Item: Customer must CAREFULLY PACK defective items are returned as if they were new and working, with all originally included parts and accessories. FAILURE TO DO SO can invalidate both RMA and warranty. LIMITED WARRANTY: Guarantees may be limited on some counts. Please check our sales literature and your invoice to check the warranty as expected.
